QUALITY SERVICE

**ELLISON'S GREENHOUSES RECOGNIZES
JOSE HUERTA FOR 13 YEARS OF SERVICE!**

Ellison's Greenhouses is a team effort and this month's MVP is Jose Huerta. Jose started at Ellison's 13 years ago in 1997. Jose works in production and can do most anything and likes to work in a team atmosphere. I asked PJ what she thought of Jose and she said "What he does is show up and do a great job - every day. We are grateful he is here!" Thank you Jose!

Plant of the Week

Wandering Jew

A Wandering Jew plant is quite remarkable. If you haven't seen one before then you are really missing out. They can grow to be very tall and they feature large sized leaves. The leaves aren't the standard variations of green, but feature two lovely stripes of silver on the top and then a purplish color on the back side.

Since a Wandering Jew plant can become very large, you want to make sure you have it in a large sized hanging basket. You will also need to prune it occasionally to keep it looking healthy. The dead parts of it can result in an otherwise healthy plant being destroyed. By taking the time to remove them you will help to ensure your Wandering Jew plant can continue to brighten up any room in the home you have placed it in.
